Professional Summary

Motivated BCA student with a strong foundation in programming, data structures, web development, and cybersecurity. Proficient in C, C++, Java, Python, and full-stack development using React.js, Node.js, and MongoDB. Passionate about cloud computing, Linux, and problem-solving. Seeking an opportunity to apply my skills in a dynamic environment.

Education

Bachelor of Computer Applications (BCA)

[Amity University] | [2024 – Present]

Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Applied Cloud Computing, Cybersecurity, cryptography

Technical Skills

• Programming Languages: C, C++, Java, Python

• Web Development: HTML, CSS, JavaScript, React.js, Tailwind CSS, Node.js, Express.js

• Databases: PostgreSQL, MongoDB

• Cloud & Cybersecurity: Basic Cloud Computing, Linux (Kali Linux Beginner)

• Version Control: Git, GitHub

• Operating Systems: Windows, Linux

Internship Experience

Edunet Foundation | EY GDS & AICTE Internship
Full Stack Web Development (MERN)
February 10, 2025 – March 21, 2025

- Selected for a 6-week internship program focused on **MERN stack development**.
- Worked on an independent project with **mentorship from industry experts**.
- Gained hands-on experience in **UI/UX principles, AI tools for web development, and project-based learning**.

- Participated in **master classes, mentorship sessions, and project showcase events**.
- Earned certifications from **EY, AICTE, and Edunet Foundation**.

Native Soft Tech
Full Stack Web Developer Intern (Remote)
December 20, 2024 – February 20, 2025

- Developed a **Portfolio Website** to showcase projects, skills, and experience, using **React, Tailwind CSS, and Framer Motion** for smooth animations and responsive UI.
- Created a **Book Store App**, allowing users to **browse, search, and purchase books online**.
    - Integrated **JWT authentication** and **role-based access control**.
    - Designed an **interactive UI/UX** with **React and Tailwind CSS**.
- Gained hands-on experience with **MERN stack, API development, and deployment strategies**.
- Collaborated in a **remote development environment**, improving problem-solving and teamwork skills.

Projects

1. Portfolio Website

- Developed a **personal portfolio website** using **React.js, Tailwind CSS, and Framer Motion**.
- Showcases **projects, skills, and experience** with an **interactive and responsive UI**.
- Implemented **smooth animations** and **dark mode toggle** for enhanced user experience.
- Deployed the website using **Vercel/GitHub Pages**.

2. Book Store App

- Built a **full-stack book store application** using the **MERN stack (MongoDB, Express, React, Node.js)**.
- Features **book browsing, search, cart management, and user authentication**.
- Implemented **role-based access control (admin/user)** with **JWT authentication**.

3. Online Auction Platform

- Developed an **auction platform** where users can **bid on products in real time**.
- Used **WebSockets for real-time bidding updates** and **MongoDB for data storage**.
- Implemented **secure authentication and payment integration**.
- Designed an **intuitive user interface** with **React and Tailwind CSS**.

4. Face Recognition System UI (Python)

- Contributed to the **UI development of a Face Recognition System** using **Python and Tkinter**.
- Designed an **interactive and user-friendly interface** for image capture and recognition.
- Worked on **frontend optimizations** for better usability and performance

Certifications & Courses

• Mathematics Specialization – Coursera (Ongoing)

• [Any other relevant certification/course]

Academic Interests

- Data Structures & Algorithms
- Cloud Development & Cybersecurity
- Problem Solving in C++
- Operating Systems
- DBMS
- Networking

Extracurricular Activities

• Learning Linux and Cybersecurity tools

• Self-learning and contributing to open-source projects

Languages

• English (Fluent)

• Hindi (Fluent)
